3 O'CLOCK P.M.

And the House having met,

The Honourable the Lieutenant Governor then entered the House and, being seated on the Throne, was pleased to open the Session by the following gracious speech:—

Mr. Speaker and Members of the Legislative Assembly:

For the first time in many years, the long prevailing prosperity and buoyant growth of the Province of Ontario have been challenged. Because of unprecedented inflation abroad and here in Canada, and because of world recession, Ontario is presently confronted by economic conditions which will call for strong and decisive response from the people and from their government.

From the people, we must have moderation and restraint in the pricing of goods and services and in wage contract negotiations, to help stem these inflationary pressures and maintain our competitive position in world markets.

From government, my ministers, in their several responsibilities, will place before you a number of measures that will be responsive to present economic conditions. The budget, which will be presented on April 7th, will indicate clearly the government's response in areas relating to provincial economic and fiscal policy.

As would be expected, the province's financial requirements will be substantial, but well within our capacity. Nevertheless, while my ministers will both practise and urge restraint, they do not intend to follow a policy of retrenchment.

For many prosperous years, successive governments of Ontario have enjoyed buoyant revenues which have allowed us to achieve our priorities. In the last two consecutive years the publicly held debt has been reduced. It is now a time to invest in a determined effort to lessen the impact of current economic forces upon the Ontario people, to maintain the high standards of services already provided, to improve the level of personal security, and to encourage individual opportunity wherever government participation and initiative can be productive.

Ontario cannot stand still. It will continue to fulfill its accustomed role within the Canadian nation which is that of a progressive, compassionate and innovative society with a standard of living and a quality of life unequalled on the North American continent.

For many years, our labour force has enjoyed the highest wages in Canada. In many important areas these are now higher than in the United States. Social services, and provisions for the aged and the handicapped in this province have traditionally surpassed those of Ontario's sister provinces.

Investor confidence in Ontario today remains strong; the province continues to benefit, in its financial transactions abroad, from the highest credit rating available.

Last year Ontario's real economic growth, after discounting inflation, was approximately 3.5% compared to 1% for Germany, −0.5% for the United Kingdom, −2.2% for the United States and −3.3% for Japan.

My ministers await, with interest and concern, the ultimate determination of the Government of Canada with respect to immigration policy. Ontario has been enriched beyond measure by those who have come to this province from all parts of the world, representing a wide and welcome diversity of languages, cultures, and races. Indeed, of all immigrants who come to this country, this province is the first choice of more than 75% of new Canadians as their preferred destination for beginning a new life in Canada. These new Canadians seek what citizens of this province have come to regard as major characteristics of life in Ontario—security and opportunity.

With respect to these and many other advantages which our province holds, the government is resolved to give leadership, and introduce legislation and policies which will maintain the role and place of Ontario in Confederation.

Notwithstanding the present economic climate, the Government of Ontario is determined to expand upon the benefits and advantages now enjoyed by the citizens of this province:

The government will seek the cooperation of law-enforcement agencies and the general public so that our cities and streets will remain among the safest and most secure in North America;

It will strengthen the security and well-being of the elderly through the delivery of extended benefits and services;

It will maintain Ontario's leadership in the field of education to ensure that our youth have access to our learning and training institutions to allow them the fullest possible development of their potential;

The government will further encourage home-ownership so that Ontario families may continue to be the best-housed in Canada;

It is the right of all Ontario citizens to aspire to productive careers in occupations which satisfy their interests and abilities. To do so, both government and industry must make greater efforts to eliminate discrimination in career opportunities which now exists between men and women. It will be the deliberate policy of the Government of Ontario to find greater opportunities for women within its public service and to find means to encourage this in the private sector;

Measures will be introduced to provide Ontario farmers with reasonable assurance of the profitable, continuing operation of their vital enterprise;

As a safeguard against the growing complexity of government and its relationship with the individual citizen, the government will establish the office of a provincial ombudsman—or ombudsperson—to ensure the protection of our citizens against arbitrary judgment or practices;

My ministers will take appropriate steps to compensate those whose social benefits have been discounted by inflation;

The government will take further measures to control administrative costs and to examine with greater scrutiny its programs and activities in order to set a leading example of prudence and economy in the management of its affairs. It will continue to limit the civil service establishment to 1974 levels.

Mesdames et Messieurs les honorables membres de cette Assemblée, quel que soit le défi que les conditions économiques actuelles puissent poser, le gouvernement de l'Ontario demeure convaincu que son programme législatif dans cette session, ainsi que son budget, contribueront fortement à raffermir l'économie de notre province, à renforcer la sécurité et le bien-être de la population et à encourager chaque citoyen de l'Ontario à poursuivre une vie active et productive, dont dépend en définitive la prospérité soutenue de notre province.

Honourable Members: However challenging the present economic conditions, the Government of Ontario holds every confidence that its legislative program in this session, together with the budget, will contribute substantially to the improvement of the provincial economy, strengthen the security and well-being of our people, and give incentive to every citizen in Ontario to pursue active, productive lives upon which the continued prosperity of our province ultimately depends.

In our Sovereign's name, I thank you.

God bless the Queen and Canada.

Her Honour was then pleased to retire.

Before the Orders of the Day,

Mr. Givens moved, seconded by Mr. Deacon, That under the provisions of Standing Order 30 the Ordinary Business of the House be set aside to discuss a matter of urgent public importance, namely the remarks concerning the native Indian people of Canada attributed to and confirmed by the Member for Temiskaming; and that this House censures the Member for Temiskaming.

After hearing the arguments of the mover and the representatives of the other parties, the Deputy Speaker ruled as follows:—

The Member for York-Forest Hill gave notice of his intention to move a motion under Standing Order 30 as he is required to do by the Standing Order. Therefore I have had an opportunity to give this matter some thought and an opportunity to read the precedents and the authorities as well as to listening to the matters raised just now.

I feel that this motion is out of order for several reasons. First, it calls for the House to censure the Member for Timiskaming. This would be a highly unusual procedure, which if it is to be proposed, ought to be proposed by way of a substantive motion, notice of which would be given on the Notice Paper. Second, the motion proposes to discuss certain remarks which were made outside the Chamber by a Member of the House. Remarks made inside the House are of course the legitimate concern of the Chair where the Chair must weigh the question of freedom of speech against a possible abuse of privilege by a Member.

A motion under Standing Order 30 must relate to a genuine emergency. I do not feel that remarks made several weeks ago outside the chamber by a Member of the House who is not a Member of the Cabinet would be sufficient justification for the House to set aside its ordinary business to debate the remarks of that particular Member.

Therefore I rule this motion to be out of order.

On appeal, the Speaker's ruling was sustained on the following division:—

PRAYERS 10.00 O'CLOCK A.M.

The following Bill was introduced and read the first time:—

Bill 120, An Act respecting the City of Hamilton. *Mr. McKeough.*

Before the Orders of the Day, Mr. Speaker ruled as follows:—

Last evening before the adjournment, the Member for Wentworth raised the matter of the recording of the proceedings of the Social Development Committee while considering Bill 100, an Act respecting the Negotiation of Collective Agreements between School Boards and Teachers.

As there is no appeal from a decision of a Committee to the Speaker, under ordinary circumstances I would not be in a position to consider this matter, but I approached it from the standpoint that I was being asked to decide whether the House on Tuesday last gave *permission* to the Committee to record its proceedings or *directed* the Committee so to do.

---

*Lieutenant Governor's recommendation received.

As the Member for Riverdale properly quoted on Tuesday evening the report of the Procedural Affairs Committee made on April 29, which was later adopted by the House, specifically stated that—"the consent of the House must be given to have the deliberations of the Committee recorded". Futhermore, what was said in the House on Tuesday shortly before the adjournment, recognized this fact. The Member for Riverdale said—"It is a special interest Bill and we have consented to the recording", to which I replied—"The House is giving *permission* as I understand it to record the proceedings of consideration of Bill 100". With this the Government House Leader expressed agreement. Furthermore, last evening, when raising this matter, the Member for Wentworth acknowledged that this was the case. He stated that permission had been given to the Committee in advance so that it would not be necessary for it to return to the House to ask for this permission.

I therefore cannot see how this previous permission in any way removed from the Committee the obligation to determine whether or not it desired such permission. The decision remains with the Committee. Whether I agree or disagree with this decision is beside the point. The decision is for the Committee to make, and therefore not for me.

The debate on the motion for Second Reading of Bill 75, An Act to reform certain Laws founded upon Marital or Family Relationships was resumed, and after some time the motion was carried and the Bill was *Ordered for the Committee of the Whole House.*

Bill 121, An Act to amend The Labour Relations Act. *Mr. Samis.*

Bill 122, An Act to amend The Labour Relations Act. *Mr. Samis.*

Before the Orders of the Day Mr. Speaker ruled as follows:—

On Thursday last, the Member for Rainy River raised what he considered to be a point of order with respect to a ruling by the Vice-Chairman of the Procedural Affairs Committee while considering Estimates.

I must again remind the House that there is no procedure for appealing the ruling of a committee chairman to the Speaker or the House. The only appeal is to the Committee. In the present instance I understand that this appeal was taken and the Chairman's ruling sustained.

There is no procedure for an individual Member to bring a matter from a Committee to the House. When a report of a Committee has been properly presented, it is then open for consideration by the House, but this is the only procedure.

However, in an effort to be as helpful as possible and to minimize such problems in the future, I will undertake to study very carefully the whole debate that took place in the Committee considering the Estimates of the Legislative Assembly and discuss the matter thoroughly with the Board of Internal Economy in an effort to provide some reasonable procedure.

The House resolved itself into a Committee to consider certain Bills.
